

GFRC ISLAND (STANDARD RECLAIMED WOOD & CONTEMPORARY MODELS)

Model #s: ID660-FOD-77XX
ID660-SPD-77XX
ID660-XX(R,O,K)-77XX
ID650-XXD-82XX

ASSEMBLY INSTRUCTIONS AND OWNER'S MANUAL

INSTALLER: Leave these instructions with consumer.
CONSUMER: Retain for future reference.

IMPORTANT: READ THESE INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION OR USE.

- Only Fire Magic/A.O.G. grills/griddles/pizza ovens and accessories can be used with this island.
- Fire Magic/A.O.G. grill/griddle/pizza oven and accessories are not included. Contact your dealer for ordering information.
- When installing an L.P. cylinder within this island, it must be installed with a Fire Magic Door w/ Tank Tray and Louvers:
Model #s 53820SC-T(L,R), 33820-TS(L,R), 23920-1T-S
- **Follow all instructions included with the grill/griddle/pizza oven and accessories to be installed into this island.**
- This island design provides all necessary ventilation.
- Adapter kits are available to accommodate additional grills. Contact your dealer for ordering information.

SPECIFICATIONS AND DIMENSIONS

Description	Dimension		
	ID660-XXD	ID660-XX(R,O,K)	ID650
Height	36 1/2"	37 1/2"	37 1/2"
Width	77"	77"	82"
Depth	34 1/2"	35"	31"

Table 1 - Overall Island Dimensions

SPECIFICATIONS AND DIMENSIONS (Cont.)

Only Fire Magic/A.O.G. grills/griddles/pizza ovens and accessories can be used with this island. **Below is a list of the options available. Contact your local dealer for ordering information.**

Item		Option(s)					
		Family	ID660-XXD	ID660-XXR	ID660-XXO	ID660-XXK	ID650
1.	Grill/Griddle/ Pizza Oven	Fire Magic	E660i, A660i, 4600, 5600, 5660				A540 (w/ ID-AD-540 adapter kit), C650
		AOG	n/a				36(N,P)B (w/ AD- 36E adapter kit)
2.	Double Side Burner	Fire Magic	32815, 32816, 32817	n/a			n/a
3.	End Access Door*	Fire Magic	53820SC-T(L,R), 53820SC-(L,R), 53920(K, B)SC-(L,R), 53820TSC, 33820-TS(L,R), 33820-S(L,R), 33920-S(L,R), 33920-1-S(L,R), 23920-1T-S, 23920-1-S, 23920-S				
4.	Under Grill Double Access Doors *	Fire Magic	53934(K,B)SC				53938(B)SC, 33938S
5.	Double Drawers*	Fire Magic	53802(B)SC, 33802	n/a			53802(B)SC, 33802
6.	Refrigerator/ Kegerator	Fire Magic	n/a	3598, 3598-D(L,R)	3589-D(L,R), 24-REF-DD, 24-WREF-GD(L,R)	3594-D(L,R)	n/a
7.	Stainless Steel Gas Timer Box	Fire Magic	5521-11T, 5521-13T				

*Compatible AOG doors/drawers models are available. Contact your dealer.

Table 2 - Island Options

PARTS LIST

Item	Description	ID660-XXD, ID650	ID660- XX(R,O,K)
		Qty.	Qty.
1.	Left side wall (A)	1	1
2.	Rear wall (B)	1	1
3.	Right side wall (C)	1	1
4.	Front wall (D) (design may vary)	1	1
5.	Countertop (design may vary)	1	1
6.	Floor pan	1	1
7.	Heatshield	n/a	1
8.	Power supply box bracket (w/ Phillips screws)	1	1
9.	Outlet bracket	1	1
10.	Duplex outlet box assy.	2	2
11.	Leveler bolts	12	11
12.	Floor mounting brackets (w/ hardware)	4	4
13.	Hardware kit A * †	8	6
14.	Timer box screws *	4	4

* not shown
† each kit contains: (1) 1/2"-13 x 13/4" bolt, (1) washer

- Your island is packaged onto 1 pallet.
- The main pieces are labeled (alphabetically) to assist in identification and assembly.

IMPORTANT

Remove all packing material (including any protective coatings) and discard prior to use.

ASSEMBLY AND INSTALLATION

WARNING: Failure to position the parts in accordance with these diagrams or failure to use only parts specifically approved with this unit may result in property damage or personal injury.

TOOLS REQUIRED

- $\frac{7}{16}$ ", $\frac{1}{2}$ ", $\frac{9}{16}$ ", $\frac{3}{4}$ " open end wrenches
- Power drill with $\frac{5}{16}$ " hex driver and Phillips driver
- Level
- Flathead screwdriver

LOCATION

While following all requirements and safety information in the owner's manuals included with your products, determine and prepare the location of the island (a hard and level surface).

Note: A combustible surface is permitted.

Important: The gas supply and electrical setup must be considered when determining the location of the island. Refer to all owner's manuals included with your products for details (as applicable).

**ASSEMBLY AND INSTALLATION REQUIRES TWO OR MORE PEOPLE.
EXERCISE EXTREME CARE DURING ASSEMBLY AND INSTALLATION.**

ASSEMBLY AND INSTALLATION (Cont.)

ASSEMBLY AND INSTALLATION OVERVIEW - DOUBLE DRAWER MODELS

CAUTION: Island components are heavy. **CAREFULLY** handle all components during assembly. **Wear gloves.**

- Fig. 6-1 provides an overall orientation and bolt assembly detail for the island.
(ID660 model shown. Appearance may slightly vary depending on island selected.)
- This section is just an overview, refer to the following step-by-step section for complete assembly (and grill/griddle/pizza oven/accessory installation) details.

ONLY **HAND TIGHTEN**

ASSEMBLY AND INSTALLATION (Cont.)

ASSEMBLY AND INSTALLATION - STEP BY STEP

CAUTION: Island components are heavy. CAREFULLY handle all components during assembly. Wear gloves.

Important: DO NOT fully tighten any bolts until the island base is leveled and squared. Hand tighten until instructed to fully tighten.

Note: Various ID660 models are depicted here. Your assembly may slightly vary depending on model selected.

Note: The main pieces are labeled (alphabetically) to assist in identification and assembly.

Attach Levelers

1. Locate the island pieces in an appropriate location (refer back to the LOCATION section if needed).
2. Carefully lay down all pieces that make up the island base and attach the levelers (see Fig. 8-1).

Note: 4 of the levelers have floor mounting brackets pre-installed. Use 2 on each side wall. See Fig. 8-1.

3. Attach the final 2 levelers to the bottom of the floor pan (for future installation).

Important: The levelers are required for ventilation and leveling purposes.

Assemble Side Wall (A) & Rear Wall (B)

Orient the left side wall (A) and rear wall (B) as shown. Carefully align the pilot holes, and insert the hardware (hardware kit A) in the order shown. Hand tighten only. See Fig. 8-2.

Assemble Right Side Wall (C) and Install Outlet Box

1. Orient the right side wall (C) and repeat the hardware installation process (hardware kit A) for the bottom hardware first. Ensure the top pilot holes are also aligned. Hand tighten only. See Fig. 8-3, step 1.

An outlet box assembly is provided and requires installation. Assemble the box as shown using screwdrivers, then repeat the hardware installation process to secure both the top of the right wall and the outlet box in place. Hand tighten only. See Fig. 8-3, step 2 and Fig. 8-4.

Note: Covers are provided for any outlets that will not be used (if applicable).

Installation continued on next page

Fig. 8-1 Attach levelers

Fig. 8-2 Assemble left side wall and rear wall

Fig. 8-3 Assemble right side wall and outlet box

Fig. 8-4 Right side wall and outlet box installed

Assemble Front Wall (D)

Double drawer models: Orient the front wall (D) and repeat the hardware installation process (hardware kit A). Hand tighten only. See Fig. 9-1.

Refrigerator/Kegeerator models: Orient the front wall (D) and repeat the hardware installation process to fasten it to the left side wall. See Fig. 9-1.

Level, Square, & Fully Tighten Island Base

1. Use a level to ensure the top surfaces of the assembly are level. The levelers at the bottom of the island may be adjusted as needed with a 1/2" open end wrench. See Fig. 9-2.

Installation continued on next page

Fig. 9-1 Assemble front wall

Fig. 9-2 Level assembly

2. Check for squareness of the island.
 - a. Measure for the X outer dimension, see Fig. 10-1. It should be approximately:
 - ID660-XXD models: 81 1/2"
 - ID660-XX(R,O,K) models: 81 1/4"
 - ID650 models: 84 1/2"
 - b. Measure the Y outer dimension, see Fig. 10-1. Carefully adjust the walls as needed to ensure the X & Y dimensions are equal. (The final dimension may slightly vary from that mentioned in step a.)
 - c. Measure for the Z outer dimension, see Fig. 10-1. It should be approximately:
 - ID660-XXD models: 32"
 - ID660-XX(R,O,K) models: 32 1/2"
 - ID650 models: 28 1/2"
3. Once the assembly is level and square, use one 3/4" open end wrench (or equivalent) to fully tighten all hardware. **DO NOT OVERTIGHTEN.**

Note: Tightening of the hardware may slightly alter the setup. Check once more to ensure the island is level and square, and adjust if needed.

Installation continued on next page

Fig. 10-1 Square unit (then tighten all bolts)

Secure Island to Floor

1. Secure the island to the floor using the 4 pre-installed mounting brackets. Use a $\frac{7}{16}$ " open end wrench and the supplied mounting hardware as appropriate. See Fig. 11-1, A.

Finish by tightening down the brackets. Hold a leveler in place (below bracket) with a $\frac{1}{2}$ " open end wrench, and tighten the nut (above bracket) using a $\frac{9}{16}$ " open end wrench. See Fig. 11-1, B.

Install Electrical

Have a licensed electrician route the electrical setup for your island. Two outlet boxes are available. They are located on the interior of the right rear corner. See Fig. 11-2.

Your installation may vary. **Follow all instructions included with the grill/griddle/pizza oven and accessories to be installed into this island.** Observe the National Electric Code and all local codes.

Install Floor Pan

1. Place floor pan into the double door cutout as shown (see Fig. 11-3).
2. Use a level to ensure the top of the pan is level. The levelers at the bottom of the pan may be adjusted as needed. The floor pan will be secured during double door installation.

Install Doors and/or Drawers

The doors/drawers for your island are purchased separately (see Fig. 11-4). Consult the instructions provided with your accessories for installation.

Note: When installing your door and floor pan, ensure the bracket is inserted through the floor pan cutout. See Fig. 11-5)

Installation continued on next page

Fig. 11-1 Mount island

Fig. 11-2 Install electrical (as needed)

Fig. 11-3 Place floor pan

Fig. 11-5 Door/floor pan install detail

Fig. 11-4 Door/drawer install detail

Place Heat Shield (if applicable)

Place the heat shield as shown in Fig. 12-1. It will need to be inserted at an angle to clear the island (step 1). Then turn it (within the island slots) until it is perpendicular with the front and rear walls (step 2). Locate the heat shield in place by using the grooves found on the top of the front and rear walls (step 3).

Install Power Supply Box (if applicable)

A power supply box is included with your grill/griddle and requires installation.

CAUTION: Refer to the grill/griddle owner's manual for all safety information regarding the power supply box.

A bracket is provided for installation in this island. Follow the steps below.

Note: If a pizza oven is being installed into the island, the power supply box bracket is not needed and this section can be skipped. The pizza oven control box is addressed later in this instruction.

1. **First** place the power supply box bracket over the rear wall, in the groove just to the left of the outlet box (see Fig. 12-2).
2. Disconnect the power supply harness extension from the grill/griddle, then align the pilot holes on the power supply box with the holes on the bracket. Insert the two Phillips screws and tighten with the power drill and #2 Phillips driver (see Fig. 12-2). **DO NOT OVERTIGHTEN.**

Note: Power supply box design may vary.

3. Once the box is installed, locate the power supply harness extension that is attached to the power supply and route it along the heat shield (if applicable) and into the grill/griddle area (for future grill/griddle installation). See Fig 12-3.

Installation continued on next page

Fig. 12-1 Place heat shield (as applicable)

Fig. 12-2 Install power supply box

Fig. 12-3 Route power supply harness extension

Install Refrigerator/Kegeator (if applicable)

The refrigerator/kegeator for your island is purchased separately. Follow all instructions provided with your accessory.

In addition to all information found in the owner's manual, simply slide the refrigerator and plug it into the island electrical outlet (see Fig. 13-1).

Place Countertop

1. Apply silicone along the top of the island (see Fig. 13-2, step 1).
2. Place the countertop onto the island as shown in Fig. 13-2, step 2. (Be sure to align the cutouts in the countertop with the openings in the front wall.)

Install Appliances and Accessories (as applicable)

The appliances and accessories for your island are purchased separately. Follow all instructions provided with your appliance and accessories for installation. See Fig. 13-3 for install locations.

Note: When installing the timer box, use the screws provided with the island.

Fig. 13-1 Install refrigerator/kegeator (if applicable)

Fig. 13-2 Place countertop

Fig. 13-3 Install appliances and accessories

CARE AND CLEANING

- **Keep the vent openings and surrounding area of the of the island clear and free at all times.**
- For grill/griddle/pizza oven and accessory care and cleaning, refer to the owner's manuals provided with the units.

CONCRETE COMPONENTS

As with any surface, concrete components require regular maintenance and care. Certain guidelines must be followed to preserve the concrete's appearance and structural integrity.

- Use trivets to protect your countertop from high-heat.
- **Scratches may occur due to usage.** To minimize, avoid striking or dragging heavy, rough, or sharp objects across the countertop. Use a cutting board when using knives.
- **Spotting and hairline cracks may occur due to the nature of the product and are not considered a manufacturing defect.**
- **Concrete products are porous and susceptible to discoloration from liquids (especially oils and acidic substances).** During use, clean up any spills immediately to prevent any possible staining or damage to the finish. Avoid allowing water (or any liquid / substance) to stand on the surface. Using coasters for drinks is highly recommended.
- After each use, clean up any food particles or debris.
- **To clean the concrete, first wash with a mild soap and water solution. For stubborn stains, a vinyl brush may be used. Allow to dry. Annually, follow up with a masonry sealer in order to preserve the finish.**
- It should be noted that, like natural stone, concrete products will develop a patina when left outside. No two concrete products are identically the same and the finish will vary.
