

NEW ARRIVAL

LTE PRO Gas Griddle

Starting at \$2,999 MAP

Built with a reinforced cooking surface and attached lid, the LTE PRO Griddle is the heaviest in its class, promising exceptional durability and longevity. Its modern design ensures even heat across the surface for the most consistent results.

All in all, it's a restaurant-caliber griddle that delivers professional-grade performance in your yard.

Available in freestanding or built-in models.

Superior Construction

- Reinforced, heavy-duty stainless steel cooking surface retains more heat.
- Spacious, 40-inch surface offers 3 separate cooking zones for cooking versatility.
- Each of the 3 burners efficiently produces 15,000 BTUs for a total of 45,000 BTUs.

Strategic Upgrades

- Enhanced control panel reads temperature from 3 zones + 3 meat probes.
- Integrated leveling screws can adjust the surface according to foods being cooked.
- Drop-in-place drip trough simplifies grease management and improves safety.

Effortless by Design

- Ergonomic "H" handle with rotating center ensures ease of use when lifting the lid.
- Cushioned sound dampers prevent the attached lid from ever slamming shut.
- Non-slip, knurled knobs feature LED lights with temperature indicators for safety.
